

We started working with Christine with a very hard task in front of us. I had to learn Dutch in a year so as to be able to teach at the university level. This is obviously a difficult task – given that i had to study Dutch aside my normal work. Thanks to Christine’s expertise, encouragement and determination, I have been able to achieve this goal. No better recommendation is necessary, I believe. This is a very skilful teacher who loves her job and is ready to adopt her teaching style to the particular needs of the client. Christine is also a very nice person, intellectual and with rich internal life, so classes are never boring or heavy – its just pleasure to see Christine on daily basis! The courses are given in a flexible manner (Skype version is possible) and they are affordable, thus one may keep doing the course, even 1 to 1, for the time necessary. I full–heartedly recommend Christine and Excellent Dutch – her students do not regret their choice!
